Build the Space Around You

24-HOUR HACKATHON · OCT 16-17, 2026 · LOS ANGELES

LA TECH WEEK

Official a16z LA Tech Week event

Fri-Sat · Oct 16-17, 2026

Los Angeles · #LATechWeek

The build

MOLTEN is a 24-hour hackathon that pushes the best young builders to ship spatial software that finally uses the body as an input.

Spatial computing keeps shipping better hardware than software, so the best headset in the world still runs a floating browser. MOLTEN gives students the headsets, APIs, and creative space to fix that in one weekend.

24 HRS

continuous build

120

vetted hackers

5

spatial tracks

20–30

working demos

100%

technical + creative talent

CS · design · film · XR · robotics · USC · UCLA · across LA

The Sponsor Ask

Why Sponsor MOLTEN

Direct access to 120 screened technical builders from USC, UCLA, and across LA. Your brand in front of the next generation of spatial computing talent before anyone else.

What We Need

Cash or in-kind sponsorship.
Venue, hardware, and catering are covered separately.

What sponsors get

Billing

Screened LA + Bay technical talent · opt-in resume book · recruiting space at higher tiers

Front-row Access

A judging seat + private walkthrough before the demo expo opens

Community

Direct access to screened spatial talent for recruiting, community, or deal flow

Sponsorship Tiers

Cash + in-kind

Tier	You Get
Title	Main stage, logo on all materials, recruiting booth, judging seat
Track	Named track, stage time, demo walkthrough, resume book
Demo	Judging seat, demo walkthrough, logo placement
In-Kind	Product placement, logo, community credit
Community	Event promotion, logo on site, social tags

Vision Pro secured as part of grand prize · Stage time starts at Track Sponsor · In-kind value counts at 50% toward cash tiers · One track per sponsor; first committed, first served

100% of funds go to hackers · Venue, catering, and prizes · No middlemen, no agency fees
First-committed sponsors get first pick of tracks. Early sponsors shape the event — lock in by Oct 9, 2026.

Who's backing us

Communities with 20K+ combined followers; past events with NVIDIA, OpenBCI, and projects with Apple, Snap, Netflix, and Google.
